THE CHOICE IS YOURS

Here at Konica Minolta, we're committed to protecting our customer's data, and offer a list of hard disk security treatment services to give our customers a peace of mind.

During service maintenance to replace the HDD, or at the end of the service period of each printing device, you can choose the treatment of your HDD from a few options available.

1

REFORMATTING & REWRITING OF HDD

This is the basic process to ensure that data is cleared off the HDD. However, the original data may still be extracted using sophisticated technology.

2

RETENTION OF HDD BY CUSTOMERS

Prefer to keep your HDD for safekeeping? Sure! Just request for it, and we'll return it to you. A new HDD may then be required to be replaced into your multi-function device.

3

DISPOSAL OF HDD

Want your HDD to be destroyed and disposed of? Done! You may request for a certificate to state that disposal is complete if you would like.
